LillipHut's special design of bottom structure

LillipHut's cages has a reasonable and practical structural design. Can ensure the bird's droppings fall in the tray (Avoid falling into the gap between the base and the tray).

PIPE

Wild hamsters live underground, making pipes, mazes and connected houses based on the habits of these small animals that move through underground passages,

■ The Exo Terra Cricket Pen is ideal for housing, keeping and dispensing live crickets. Crickets prefer dark spaces, and will readily crawl into the tubes which provide hiding places for them, making it easy to use the tubes as dispensing tools. The tubes remain in position when the lid is removed, allowing easy access and less chance of cricket escape.

Why Rapids Power Filter

- A state of the art compact hanging filter coupled with an one-touch filter cartridge.
- Keeps the aquarium water quality ideal via its unique two layer filtering system. This system consists of a Poly-Fiber Media + Activated Carbon inspite of its compact size.
- Easy to install and easy to handle.
- Application up to a 40L tank with the small Rapids Power Filter while up to a 80L tank with the large. Also applicable as a sub filter when used in conjunction with a canister filter or a top filter.
- Ideal for a small fresh water tank with dwarf fishes, shrimps, or plants for beginners.
